- American Board of Medical Laboratory & Immunology – Member 1986-1992
- Clinical Immunology Society – Member 2006-Present
- International Association of Physicians in AIDS Care (IAPAC) – Member 1996-Present

MAJOR RESEARCH INTERESTS:

There has been an evolution of my research interests from initially understanding clinical and laboratory correlates of allergy, immunodeficiency and infectious diseases to an appreciation of the impact of these illnesses and their progression to chronic illnesses on children and families. HIV/AIDS in children has served as a paradigm for this evolution and has led to my expanding interest into the impact of disease on quality of life, including palliative care, pain management and end of life care.

GRANT HISTORY:

- A Principal Investigator
 - **International Maternal Pediatric Adolescents AIDS Clinical Trial Group (IMPAACT)** 2007-2013 Total amounts awarded: \$12,000,000
 - **National Institutes of Health – R21 A153501**
New Jersey Pediatric AIDS Clinical Trials Consortium 2001 – 2007
Total amount awarded: \$10,149,050
 - **National Institutes of Health - #U01 AL25883**
NJ Pediatric AIDS Clinical Trials Consortium 1994 – 1999
Total amount awarded: \$10,985,111
 - **New Jersey Governor’s Council on Autism**
Investigation of Immunological Abnormalities in Autistic Children Including Possible Effects of the Measles, Mumps and Rubella (MMR)

- *Immunization, 2000 – 2002 Total amount awarded: \$50,446*
- **Committee Concerned for Children**
Vaccine Study 1997 Total amount awarded: \$100,000
- **Pediatric AIDS Foundation**
*Ariel Project: Prevention of Perinatal Transmission from Mother to Child
1994 – 1997 Total amounts awarded: \$152,239*
- **Committee Concerned for Children**
Nutrition Support Program 1996 – 1997 Total amount awarded: \$120,000
- **Starfish Foundation for Children with AIDS, Inc.**
Social Support 1994 – 1998, Total amount awarded: \$626,706
- **National Institute of Child Health #N01-HD-3-3162**
*Protocol 188 – Neurological Study of Infants/Children with HIV-1
1993 – 1995 Total amounts awarded: \$497,769*
- **American Academy of Family Physicians**
*AIDS Orphans: Extending the African American Family
1993 – 1994
Total amount awarded: \$5,000*
- **Institute of Allergy & Infectious Diseases**
*Northeastern Minority Oral Health Research Center
1992 – 1995
Total amount awarded: \$25,873/yr.*
- **HRSAMCHB**
*National Pediatric HIV Resource Center
1991 – 1998
Direct costs awarded: \$9,529,826
Total amount awarded: \$10,258,424*
- **Association François-Xavier Bagnoud**
*FXB International Training Program
1991 – 1998
Total amount awarded: \$2,795,000*
- **Agency for Health Care Policy & Research - Office of the Forum**
*HIV Guideline Development
1991 - 1993
Direct costs awarded: \$248,206
Total amount awarded: \$352,481*
- **National Institutes of Health/National Institute of Allergy & Infectious Diseases- #90-A1-04C**
*Minority Expansion
1990 – 1991
Total amount awarded: \$100,000*
- **National Institutes of Health/National Institutes of Allergy & Infectious Diseases-#A125883-04S2**
*Pediatric Expansion
1990 – 1991
Direct costs awarded: \$164,245
Total amount awarded: \$258,000*
- **Department of Defense/Medical Research & Development Command - DAMD17-88-C8081**
*Maternal Factors Influencing Perinatal Transmission of HIV Infection
1988 – 1993
Direct costs awarded: \$2,961,701
Total amount awarded: \$4,819,069*
- **New Jersey Hemophilia Association**
*Longitudinal Evaluation of Immunologic Parameters in Hemophilia
1988 – 1989
Total amount awarded: \$12,600*
- **DDR-BRS Shared-N.I.H Instrumentation Grant**
*1988
Total amount awarded: \$306,000*

- **National Institutes of Allergy & Infectious Diseases - #1 U01 AI25883-01**
Network of AIDS Clinical Studies Group
1987 – 1994
Total amount awarded: \$11,623,884
- **Robert Wood Johnson Foundation**
Robert W. Johnson Grant to New Jersey State Department of Health
Subcontract to CHAP
1986 – 1990
Total amount awarded: \$672,000
- **National Institute of Health's Research Fellowship**
Prospective Evaluation of Families at Risk of AIDS
1986 – 1989
Total amount awarded: \$28,000/yr.
- **National Institutes of Health - #AI 23242-01**
CNS Involvement in Pediatric AIDS Encephalopathy
1986 – 1989
Total amount awarded: \$268, 860
- **National Institutes of Health**
Effects of Zinc on Immunocompetence of the Elderly
1984 – 1987
Total amount awarded: \$241,126
- **New Jersey State Department of Health**
AIDS Research and Patient Management 1984 – 1985
Total amount awarded: \$50,000
- **Pediatric AIDS Foundation**
Long Term Survivors 1994 – 1995 total amounts awarded: \$87,625
- **The May Day Fund**
Pain in HIV-Infected Children 1994 – 1995 Total amount awarded: \$49,994
- **Pediatric AIDS Foundation:**
Pediatric AIDS Student Intern Award 1993 – 1995
Total amount awarded: \$2,000
- **Centers for Disease Control - U64/CCU202219**
Natural History Study 1991 – 1996 Total amount awarded \$6,125,424
- **Association Francois Xavier Bagnoud**
Francois Xavier Bagnoud Endowed Chair in Pediatrics
1996 – Present Total amount awarded: \$1,200,000
- **Association Francois Xavier Bagnoud**
Francois Xavier Bagnoud Endowed Chair in Nursing
2000 – Present Total amount awarded: \$1,400,000
- **National Institute of Health, Division of Research Resources-
S10 RR03840-01** Cell Sorter, 1988 – 1989
Total amount awarded: \$306,000
- **Hoffman La Roche Foundation**
Pediatric AIDS Fellowship Training Program
1987 – 1999 Total amounts awarded: \$572,618
- **New Jersey State Department of Health**
Cell Analyzer for Flow Cytometric Analysis of Pediatric AIDS
1987 – 1988 Total amounts awarded: \$35,000
- **Gibraltar Biological Laboratories**
Effects of Disinfectants on HIV Cultures 1987 - 1988
Total amount awarded: \$34,615
- **New Jersey State Department of Health**
Application for Health Service Grant, 1987; Total amount awarded: \$75,000
- **AIDS Medical Foundation National Organization**
Ribavirin in Pediatric AIDS 1986 – 1988 Total amount awarded: \$67,500
- **Ciba-Geigy Pharmaceuticals**
Effects of Oxiracetam on Immune Response of Patients with Alzheimer's disease

- 1985 – 1986 Total amounts awarded: \$13,225
 - **AIDS Medical Foundation**
Perinatal Transmission of HTLV-III Infection 1985 – 1986
Total amount awarded: \$10,000
 - **National Institutes of Health – RFP 263-84-P(51)-211**
To provide AIDS specimens to NIH 1985 Total amount awarded: \$75,000
 - **National Institutes of Health/NCI Research Fellow**
Pappilloma Virus Infection 1974 – 1976 Total amount awarded: \$42,000
- Total Grant amount JO as PI= \$31,346,900.00; 1974-2013**

B Co-Investigator

- **NICHD AIDS Clinical Trial Group**
(NICHD) 2010-2014 Total amounts awarded: \$12,000,000
 - **National Institute of Mental Health/NCMHD**
CBSM, Psychological & Physical Health in HIV+ children
9/9/04 – 9/9/06 Total amount awarded: \$155,500
PI: Denise Dixon, Psychiatry
 - **National Institute of Health - #R21 A153501**
Assessment of Smallpox Specific Long Lasting Immune Response
2002 – 2004 Total amounts awarded: \$466,500, PI: Thomas Denny
 - **National Institutes of Health-National Institutes of Nursing Research**
Quality of Life in Children with HIV Infection
2001 – 2004 Total amounts awarded: \$1,029,291
 - **National Institute of Health #1R21 A1142708-02**
Immune Responses to a Cochleate HIV Subunit Vaccine in a Maternal/Fetal Baboon Model
1997 - 1999
Direct costs awarded: \$380,169
Total amount awarded: \$485,339
 - **National Institutes of Health**
Syndromic Approach to the Chronic Fatigue Syndrome
1991 – 1995
Total amount awarded: \$2,611,440
 - **National Institute of Allergy & Infectious Diseases**
Collaborative Prospective Cohort Studies of Heterosexual Transmission of HIV and Related Retroviral Infections in Northern New Jersey
1988 – 1995
- ❖ **Total Grant amount awarded as Co-PI: \$13,767,244**
- ❖ **Total Grant amount awarded: \$45,114,144.00**

MAJOR ADMINISTRATIVE RESPONSIBILITIES:

- Medical Director, Circle of Life Children’s Center 2004 – Present
- Medical Director, FXB Center for Children (formerly CHAP) 1997 – Present
- Medical Director, NJ AIDS Education Training Center 1994 – 2002
- Chair, PACTG 219C Long-Term Follow-Up Study 1993 – 2005
- Co-Chair, National Pediatric ARV Treatment Guidelines 1993 – Present
- Director, Allergy/Immunology Fellowship Training Program 1976 – Present
- Director, Pediatric ID Fellowship Training Program 1976 – Present
- Director, Division of Allergy, Immunology & Infectious Diseases, Department of Pediatrics 1976 – Present
- Medical Director, Children’s Hospital AIDS Program (CHAP) 1988 – 1997

PRIVATE PRACTICE:

Anthony Minnefor/James M. Oleske
56 Ferry St.
Newark, New Jersey

1977 – 1986

Practice limited to consultations at New Jersey hospitals and patients seen at the University Hospital.

PATENTS HELD: Oleske, JM et al: Protein-Lipid Vesicles & Autogenous Vaccine Comprising the Same UMDNJ Docket Number: NJMS-94-30, Nov. 10, 1998

Biography:

James M. Oleske, M.D., M.P.H.
François-Xavier Bagnoud Professor of Pediatrics

James M. Oleske, M.D., MPH, a multi-boarded Pediatrician, is the François-Xavier Bagnoud (FXB) Professor of Pediatrics at the RBHC Rutgers/NJMS, Newark, New Jersey. He is Director of the Division of Pediatric Allergy and Immunology and Infectious Diseases in the Department of Pediatrics at Rutgers/NJMS and serves as the Medical Director of the FXB Center for Children, one of the nation's largest treatment and clinical trials centers for childhood HIV/AIDS and the Center for Laboratory Immunology. An undergraduate at U of Detroit (BS '67) medical graduate of the than College of Medicine & Dentistry of NJ (71), and Masters in Public Health from Columbia University ('74), Dr. Oleske completed a Pediatric residency and a fellowship in Ambulatory Pediatrics at the Harrison S Martland Hospital of CMDNJ in Newark NJ ('74) and then completed a 2 yr. National Cancer Institute fellowship in Pediatric Allergy, Immunology & Infectious Diseases at Emory University and CDC, Atlanta, GA.('76). He returned following his training in Atlanta to Newark, having an appointment as assistant Professor of Pediatrics at NJMS and Director of the Fifth Channel program at Saint Michael Hospital where he also served as the director of Allergy/Immunology and Pediatric Infectious Diseases. There, with Dr. Anthony Minnefor, he established the first Pediatric Allergy/Immunology and Infectious Disease fellowship program in New Jersey (78) which later became two RRC approved Pediatric Fellowship training programs (AI and PID). In 1983, he moved the Division's clinical and fellowship Training programs to the United Children's Hospital of NJ and in 1986 with Mary Boland, established the Children's Hospital AIDS program (CHAP) for the provision of comprehensive, multi-disciplinary family centered and compassionate care for infants, children and adolescents infected with HIV. At that time, with Thomas Denny, he established, at the NJMS in the Department of Pediatrics, the Center for Laboratory Immunology (CLI). As Director of the CLI, he has additional certification in Diagnostic Laboratory Immunology, holding both New Jersey Medical and Laboratory Immunology licenses. He is also board certified in Pediatrics, Allergy and Immunology, Pediatric Infectious Diseases, Pain Management, Hospice and Palliative Care and is a Certified IRB Professional. In 1997, CHAP was relocated to the Newark campus of UMDNJ as the François-Xavier Bagnoud (FXB) Center, which by than reached across traditional boundaries to link research and practice through education; the Center provides clinical care, education, and technical assistance in the United States and globally to support capacity building to address the HIV/AIDS epidemic. Despite extensive and diversified research, much of this work over the past 30 years, focused on both prevention and treatment for Perinatal HIV/AIDS infection in infants, children and adolescents in US and underserved International countries. These experiences lead to advocacy for pain management and palliative care in pediatric chronic illnesses. In addition to being the Medical Director of the FXB center, he co-chaired with Dr, Wafaa Assad the first US guidelines for the prevention and management of HIV/AIDS for the AHCPR ('91-'93) and with the NICHD, CDC and NIAID, participated in the development and updates on the natural history, prevention and treatment guidelines for Perinatal, Pediatric and Adult HIV/AIDS, their complicating Opportunistic Diseases and adverse effects of ART treatment. In 2002 he became the Medical Director of the Circle of Life Foundation for the provision of palliative care for children and adolescents with chronic diseases an outgrowth of his early experiences with the high mortality and the painful lives experienced by children with AIDS. Throughout his career, Dr. Oleske has authored over 250 peer-reviewed articles, written 60 chapters and medical reports and participated in over 230 abstracts presented at national and international meetings. Despite his major clinical, administrative and research responsibilities, Dr. Oleske continues his public advocacy role for women, children and adolescents with HIV infection and AIDS and children and adolescents with chronic life threatening and limiting diseases that require palliative care, pain management and Hospice/End of Life care.
